

WANDERPORT
all things connected

Wanderport BusinessONLY™ Now in New York's Iconic Grand Central Terminal!

Finally, the hundreds of world-class shops and restaurants in the heavily-trafficked Grand Central Terminal will have access to true enterprise-grade communication services thanks to [Wanderport BusinessONLY™](#).

Wanderport has heavily invested in our fiber optic network serving the Terminal, and like our other commercial properties, a redundant network head-end sits at a secured location in the Terminal. Over the coming months, we will be building and expanding our reach throughout the Terminal.
